SMIT CLASSROOM

🔗 https://smitclassroom.vercel.app/

GITHUB

🔗 https://github.com/muhammadhussainjs/SMIT-CLASSROOM

I've successfully completed my website , SmitClassroom, using the MERN Stack. Here's what it offers:
Login System: Simple and secure login Data Storage: Manage and store data using MongoDB Unique Links: Each user (teacher) gets a new link that they can share with their students

BLOGGING APP

🔗 https://muhammadhussainjs.github.io/Blogging-App/

GITHUB

🔗 https://github.com/muhammadhussainjs/Blogging-App

I developed a blogging app using JavaScript and Firebase, where users can log in, create posts, and upload images. Each user's posts, along with their profile picture, are displayed on the homepage. When a post is clicked, all posts from that specific user are shown.

EXPERIENCE

WEB AND APP DEVELOPMENT

SAYLANI MASS IT TRAINING

📅 05/2023 - 05/2024   📍 Bahadurabad

• I am completed mern stack course at smit

SUMMARY

Passionate about developing dynamic web applications, I am a MERN Stack Developer eager to contribute my skills in JavaScript, React, and Node.js. With hands-on experience creating user-friendly applications like SmitClassroom and a blogging platform, I am committed to building solutions that enhance user experience and engagement. My drive to innovate aligns perfectly with the vision of leveraging technology for positive impact, and I am excited to be part of a team that shares this commitment
